

Box plot showing the distribution of the number of children per family. The y-axis represents the number of children, ranging from 0 to 10. The box plot indicates a median of 3, with the interquartile range (IQR) spanning from 2 to 4. Whiskers extend from 1 to 5. There are two outliers at 1 and 9, marked with black dots. An asterisk (*) is placed above the outlier at 9. A red dashed horizontal line is drawn at y=0.
